

E-learning

Tools Session 3: Cutting Edge Technologies

Key topics: podcasting, vodcasting, m-learning, VoIP, virtual worlds

Key terms: moblogging, MUVE, machinima

Key theorists: Gavin Dudeney

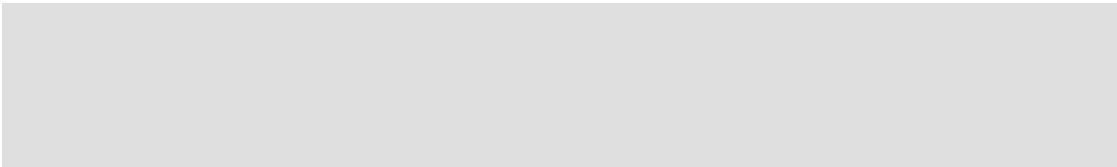

| **The Sistine Chapel, Vassar Island, Second Life** – Screen capture: MP 2007 |

In today's class, we'll be considering a range of technologies at the cutting edge of web 2.0 and e-learning. Some – especially virtual worlds – could be seen as representing the incipient web 3.0. You might like to make notes on each area.

 Podcasting

1) Podcasting

Notes:

 **Vodcasting**

2) Vodcasting

Notes:

 **M-learning**

3) M-learning

Notes:

 Digital storytelling

4) Digital storytelling

Notes:

 VoIP

5) VoIP

Notes:

6) Virtual worlds

Notes:
